DETAILED ACTION

1. Amendment and response filed by applicants date 05/13/2005 have been entered and considered carefully. A petition was filed by applicants on 05/13/2005. The decision of petition affirming applicants has been mailed to applicant on 07/13/2005. Claims 1, 15-27, and 33 have been cancelled. Claims 2-14, 28-32 and 34 are pending. Claim 10 is withdrawn from further consideration.

2. ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 12-14, 28-32 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 12-14, 28-32 are drawn to cross linked or beaded polymer which has no antecedent basis in the specification. In the specification, the only disclosed polymer is Polyethylene glycol capped with oxetane group. Claims 12-14 and 28-32 are claiming all polymers not limited to PEG.

Applicant is advised that should claim 1 be found allowable, claim 34 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

3. Claims 2-9 and 11 are allowable.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Niloofar Rahmani whose telephone number is 571-272-4329. The examiner can normally be reached on Monday through Friday from 8:30 am to 5:00 pm.
